OFFICIAL COUNT

Required to Settle the Judicial Contest.

Conflicting Claims From Trigg County Make the Race Uncertain.

The contest for circuit judge, on the unofficial returns, leaves the result in so much doubt that the official count to-day will be required to settle it.

The majorities in four counties are unofficially reported as follows:

Cook, NESH.	266
Lyon	3
Trigg	411
Christian	603

These figures give Cook a lead of 77 votes in the district, but the reports from Trigg county are all from the Cook side who have given out figures ranging from 344 to 411 majority. Long Hollow, unreported until yesterday gave Bush 5 and Cook 23. The election in Trigg county is said to have been unfair from start to finish and in some places was fraudulent. Bush was not given a division of officers in many precincts and all sorts of irregularities were permitted. At Montgomery the poll room was freely entered and a crowd was allowed to stand around inside the room and electioneer for Cook, it is said.

This irregularity, however, was not serious, as the vote was light and the election apparently otherwise properly conducted.

It was at South Cadiz precinct, where Cook received more than 100 majority, that the polls were kept open until nearly 5 o'clock, according to reliable reports. At 5 minutes past four one of Bush's supporters, watch in hand, demanded that the voting be stopped. His request was denied and our informant asserts that the voting continued for at least 30 minutes longer, or until 4:35. This was not an irregularity, but a fraudulent disregard of the law and it is a principle in law that fraud vitiates everything it touches. The election in this precinct was fraudulent, null and void, if the facts are as reported, and Judge Cook's title to the nomination, if he has been nominated, rests upon a fraud that will not stand the test of the courts.

Mr. Bush left for Cadiz yesterday and will have attorneys to represent him at the count today. If the official figures show that he has been fairly defeated he will accept the result without a murmur. He will probably demand a recount of all the ballots, as the first step to arrive at the correct figures. The count today will only be to tabulate the results and pass upon the questionable ballots. The county committee will probably meet and appoint a sub-committee to make the count. In the event of a contest, the committee would have to meet at a later date to make a recount of all the ballots.

The vote was heavy all over the district. In Christian county the total vote will reach 2,700. In Lyon there were 863 votes cast.

All of the returns in Trigg county, it was learned yesterday, were illegally made. No seals were used in the county and no lawful returns anywhere sent in. This of course invalidates the entire election in Trigg county, as the court of appeals has decided that no election can be held except under the law and the law requires all returns to be made under seal. With Trigg county thrown out, Bush's majority in the district would be about 350.

It is also said that the ballots in two precincts were burned. In this event a recount of the vote would change the result, since ballots destroyed could not be counted. If all these things are true and Mr. Bush has been defeated by fraud, his friends will demand that he enter a formal contest before the committee and in the courts. Much will depend on the disclosures of the official canvass.

EASY SAILING

For the More Important of the Machine Candidates.

Thorne, Hays, Fuqua, And Possibly Greene Seem to Have Broken the Slate.

Incomplete returns from the State primary indicate the nomination of all of the machine candidates except possibly three.

Those who have certainly won are:

Governor—J. C. W. Beckham.
Lieutenant Governor—W. P. Thorne.
Auditor—S. W. Hager.
Treasurer—H. M. Bosworth.
Secretary of State—H. V. McChesney.

Superintendent of Public Instruction—J. H. Fuqua.

Commissioner of Agriculture—Hubert Vreeland.
Fuqua for Superintendent of Public Instruction was not on the Beckham slate.

The first returns indicate that Morgan China has defeated Bob Greene for Clerk of the Court of Appeals, but the figures may be changed.

The race for Attorney General will be between N. B. Hays and Chas. Carroll, with Hays an easy winner.

Hays and Fuqua seem to be the only men who have broken the slate, unless Col. Bill Thorne be counted as anti-machine. The fact, though, that his name came first on the ballot, indicates that the machine made no effort to defeat him.

In every other race the machine candidates were given first place.

In Louisville 10,000 votes were reported to have been cast in one race, the usual Democratic vote being about 18,000. This heavy vote needs explanation in view of the statement in all the city papers that the election was quiet and listless.

The Herald, the Republican paper, gives this explanation:

"A number of Democratic leaders opposed to the machine conceded the fact that there never was a more listless primary held in the history of the city. The machine itself in very few instances had any workers out, for the simple reason that they had all of the workers within the booths. These same leaders made the positive statement that in their judgment 6,000 is the undeniable maximum number of honest votes cast, and that the marvelous number of 19,176 votes recorded in the race for Commissioner of Agriculture was so farcical as to make it laughable even to a dog, except for its ultimate serious effect upon the party. The padding was wonderful."

In Christian county the name of John K. Hendrick was on the ballots in spite of his withdrawal and many complimentary votes were cast for him.

In three Hopkinsville precincts the State ballots were insufficient. In No. 4 precinct with 350 votes requiring under the law 475 ballots only 252 were in the book and they gave out at one o'clock. About 57 votes for Griffith, Chenault and Hays were lost in this precinct alone. In two other precincts the ballots gave out at one o'clock. The machine voters were all rushed in early and by noon the machine workers disappeared, showing that their entire vote was in. The plan was evidently to get in the machine vote early everywhere, probably in anticipation of the shortage of ballots, of which the anti-machine side had no means of knowing. The same trouble occurred in four precincts in Paducah, and perhaps in many other counties in Western Kentucky, where the anti-machine sentiment was strong. Just how many votes were about cut in this way is a matter of conjecture. Perhaps enough to change results in some races.

McC. Pearson claims his nomination over J. F. Dempsey for railroad commissioner in this district. He claims 5,000 to 5,500 in the First congressional district. Bell got a strong vote, carrying Christian county by probably 2,000 majority. In the second judicial district (Paducah) W. M. Reed beat John G. Miller for circuit judge and Geo. G. Lovett was nominated for commonwealth's attorney.

SHOWS AMAZING GROWTH.

Manufacturing Power in United States Doubled in One Decade

Judging by the amount of power used, manufacturing in the United States has almost doubled in ten years, and it is five times greater than it was 30 years ago.

Here are the figures from the census reports:

Year	Horse Power	Electric Power
1870	1,000,000	1,000
1880	2,000,000	10,000
1890	4,000,000	100,000
1900	8,000,000	1,000,000

These vast amounts do not include the power used for other purposes than manufacturing, such as transportation and lighting. More than a million horse power was used in the power houses of the 1,200 electric railroads in operation in 1900, and more than a million and a half horse power was used in generating electricity for the 4,300 lighting and power distributing stations. More than 350,000 horse power is employed for this purpose in New York city alone.

Of the total power used in manufacturing during the census year, steam engines furnished 8,742,416 horse power, or 77.4 per cent of the aggregate; water wheels supplied 1,727,258 horse power, or 15.33 per cent; electric motors, 311,016 horse power, or 2.7 per cent; gas and gasoline engines, 143,850 horse power, or 1.3 per cent, and other forms of mechanical power 64,490 horse power, or five-tenths of 1 per cent. Limited power was used to the extent of 321,051 horse power, or 2.8 per cent of the total. Of this rented power 163,682 horse power was electric and 147,369 horse power was from other sources of energy.

The modern office building, often housing a population equal to that of a small town, is almost wholly a creation of the last ten years, and the power required in these structures forms a large item when the number of these buildings in the United States is taken into consideration, as about 1,000 horse power is required to operate the lighting plants, elevators, pumps, compressors and ventilators in a 16-story modern building containing 500 offices.

New York leads the list of states in the use of water power, having 368,456 horse power derived from this source in 1900, against 233,795 in 1890, an increase of 134,661 horse power, or 57.6 per cent, directly traceable to the great expansion of the wood-pulp industry in the state.

A Romantic Story.

An infant, said to be English and of noble birth, is reported to have been abandoned on a lonely roadside in France by the occupants of a motor car. The car contained four persons—one of them being a lady—and, after depositing the cradle, was driven off. Beneath the baby's pillow were 14 bank notes representing \$560, and a note stated that whoever would take charge of the child until its majority would receive a fortune. A peasant who discovered the cradle will keep the child.

HOME LIFE

To be happy and complete requires a perfect balance of health between husband and wife. Many a happy home has been made miserable by the whims and fancies, the moodiness and ill temper of a dyspeptic husband or wife. Dyspepsia and other disease of the stomach and its allied organs of digestion and nutrition can be cured by the use of Dr. Pierce's Golden Medical Discovery. When the diseased stomach is cured, the food eaten is perfectly digested and assimilated, and the body is made strong by nutrition, the only possible source of physical strength.

Chronic cases of dyspepsia and stomach "trouble" which have been pronounced incurable have been perfectly and permanently cured by the use of "Golden Medical Discovery".

"I was taken sick two years ago," writes Rev. W. H. Patterson, of White Cloud, Ala., "with what the doctors thought was gastric trouble, indigestion of various dyspepsias, also constipation and irregular liver. I was in a dreadful condition. I had seen different doctors with but little result. Finally, I wrote you, stating my condition. You recommended Dr. Pierce's Golden Medical Discovery, 'Favorite Prescription' and 'Pellets.' I bought two bottles and it seemed to do very little good. I had gotten so feeble that I was almost not traveling about, had got down to one hundred and fourteen pounds. I wrote again and you advised me to still continue. So I sent and bought six bottles and got the 'Pellets' and began anew, following directions. I had taken about five bottles I felt very much better and was greatly improved, and weighed one hundred and thirty-five pounds. I could now do my work as usual. I am now cured of the system from accumulated impurities."

Cotton in Kentucky.

Reports to the census office show the cotton crop for last year to have been 10,430,945 standard bales, as against an average crop of 9,902,277 bales. Graves county produced 1,308 bales, as compared with 140 in 1901.

"I have derived great benefit from the use of Chamberlain's Pain Balm for rheumatism and lumbago," says Mrs. Anne Hagelgans, of Tuckahoe, N. J. "My husband used it for a sprained back and was also quickly relieved. In fact it is the best family liniment I ever used. I would not think of being without it. I have recommended it to many and they always speak very highly of it and declare its merits are wonderful." For sale by C. K. Wyly, druggist.

THIS AND THAT.

While fishing in the North sea an Ostend trawler has picked up a large anchor over 200 years old.

Several of the congregations recently driven from France have obtained the czar's permission to settle in Siberia.

For calling a policeman "an orphan" a Viennese cabdriver has been sent to jail for four days for "insulting an official."

Memorial windows to Dr. Johnson and Oliver Goldsmith are to be placed by subscription in St. Saviour's church, Southwark, London.

To destroy the mischievous practice of persons who invent false bottle-messages, the German Nautical society at Kiel suggests that all ships shall carry special tin cases.

Liverpool, England, is about to try a novel experiment in building houses for the poor with concrete slabs formed from the refuse clinker of the corporation dust destructor.

After lying hidden for over two centuries, the wreck of the old 70-gun British frigate Anne has just been discovered embedded in the sands of the Dungeness. She was lost in a fight with the French in 1690.

The fisher folk along the North sea feel very bitter against the steam trawlers. One of these has ten times the catching power of the old sailing trawlers, and the number of men and boys employed has, therefore, dropped, according to a report from Hull, from 34,319 to 27,288 within a decade.

At foreign continental hotels it is customary for the porters to paste a label with the name and picture of the hotel on the trunks of the departing guests. A tourist recently complained to a German newspaper that his trunk had been thus spoiled; but the editor who printed this complaint was at once deluged with letters from others who highly approve of the letters as a sort of souvenir.

Closer Attention to Details.

A merchant in London has a servant who at first was very forgetful. This fault was especially annoying at meal times, when something essential was sure to be lacking from the table.

One day, says the London Tit-Bits, the family were seated at the table and the bell was rung as usual. The girl hurried to the dining-room. "Maria," said Herr B., "just run and fetch the big step-ladder down from the attic and bring it here."

Maria, who had been disturbed at her dinner, gave a grunt of dissatisfaction, but ran up the three flights of stairs to fetch down the ladder. In about five minutes she returned to the room, panting with her exertion.

"Now," said Herr B., "put it at the end of the room and climb to the top."

Maria did as she was told, and when she was at the top Herr B. quietly observed:

"Maria, you have now got a better view than we have; just look round and tell us if you can see any salt on the table. My wife and I could not find it."

This settled the business. Maria has never forgotten the lesson.

-MAY 12, 1903-

Joachim Miller, "The poet of the Sierras," died Sunday at his home in Oakland, California.

The next meeting of the Southern Baptist Convention will be held in Nashville in 1904.

Seidbach's new hotel will be the highest building in Louisville. It will be a sky-scraper twelve stories high.

The Republicans will meet at Louisville Thursday to call a convention. There are three announced candidates for Governor, Pratt, Wilson and Belknap.

Now that the election is over and we are to have a rest from politics for some months, we expect to see our 'Tidy Man' Contest become a live issue. Are you saving your coupons?

The Supreme Court of Kansas has affirmed the sentence of Miss Jennie Morrison, who was given 25 years in the penitentiary for the murder of Mrs. Olin Castle. The case has been a hard fought one.

John Chenault, according to the reports yesterday, did not concede his defeat for Auditor. As the counts will not be made until today, it is impossible to even guess at the results in a majority of the counties.

The Republicans of the Third railroad district in a two-days' convention at Paris, nominate T. Siler for railroad commissioner to succeed John C. Wood, the present incumbent. His election is assured, as the district is Republican.

The shortage of ballots in Western Kentucky counties shows one of the provisions made to avoid the consequences of a heavy vote in the semi-machine counties. Col. Hendrick doubtless realizes now that he got out none too soon.

The figures from the primary election in the state are slow coming in. The returns yesterday seem to indicate that Mitchell and McFarrell will be the contending candidates for Attorney General against R. B. Hayes, the probably winner.

MRS. WATSON.

Death of Christian Woman Near Casky Sunday.

The wife of Mr. N. T. Watson died Sunday at her home near Casky. She suffered a paralytic stroke about five years ago, and never fully recovered. For the past month she had been much better, however, and her death came unexpectedly.

She was a Christian woman and had been a member of the Baptist church for a number of years. She was about 50 years old. The interment took place in Hopewell cemetery yesterday morning.

Death at Asylum.

Caroline Coleman, a colored inmate of the Western Asylum, died Saturday and the remains were shipped to Clinton, her former home, Sunday, for interment.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

All Humors

Are impure outlets which the skin, liver, kidneys and other organs can not take care of without help, there is such an accumulation of them.

They liberate the whole system. Pimples, boils, eruptions and other eruptions, loss of appetite, that tired feeling, bilious turns, ita of indigestion, bad headaches and many other troubles are due to them.

Hood's Sarsaparilla and Pills

Remove all humors, overcome all their effects, strengthen, tone and invigorate the whole system.

"I had salt rheum on my hands so that I could not work. I took Hood's Sarsaparilla and it drove out the humor. I continued its use till the sores disappeared." Mrs. I. O. Brown, Rumbold Falls, Mo.

Hood's Sarsaparilla promises to cure and keep the promise.

ELLIS GLENN

Found Again and Will Be Tried Once More.

Ellis Glenn, the woman who masqueraded for several years as a man and was afterward the principal in a sensational forgery trial at Parkersburg, W. Va., and who was supposed to have left the country, has been discovered clerking in a country store near Parkersburg.

The Supreme Court of the United States having passed upon her application for habeas corpus unfavorably, the Prosecuting Attorney announces that she will be tried again at the present term of Court.

Disastrous Wrecks.

Carelessness is responsible for many a railway wreck and the same causes are making human wrecks of sufferers from Throat and Lung troubles. But since the advent of Dr. King's New Discovery for Consumption, Coughs and Colds, even the worst cases can be cured and hopeless respiration is no longer necessary. Mrs. Lois Cragg of Dorchester, Mass., is one of many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all throat and lung diseases by R. C. H. J. SHARP DEAD.

Was a Confederate Veteran and Much Esteemed Citizen.

Mr. H. J. Sharp died at his home in this city Friday, of a complication of diseases. He had been ill with heart trouble and Bright's disease of the kidneys for about a year and for six months he had been confined to his room. He had been a great sufferer, but his condition seemed to be improved during the past week and his death was rather sudden.

Mr. Sharp was about 60 years old and was a son of F. C. Sharp, a prominent lawyer of Kentucky.

Deceased was born in this city, and had resided in this county all of his life. He was a bachelor and a man who had many friends who will learn with much regret of his demise. He is survived by two sisters, Mrs. Carrie McKee and Mrs. A. E. McKee.

He was a Confederate veteran, having served in the Civil War. Several survivors of the lost cause acted as pall bearers. The interment took place in Hopewell cemetery Sunday.

Not A Sick Day Since.

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured and have not seen a sick day since. Neighbors of mine have been cured of rheumatism, neuralgia, liver and kidney troubles and general debility." This is what B. F. Bass, of Fremont, N. C., writes. Only 50c. at R. C. SCOTT'S EMULSION

Scott's Emulsion is the means of life and of the enjoyment of life of thousands of men, women and children.

To the men Scott's Emulsion gives the flesh and strength so necessary for the cure of consumption and the repairing of body losses from any wasting disease.

For women Scott's Emulsion does this and more. It is a most sustaining food and tonic for the special trials that women have to bear.

To children Scott's Emulsion gives food and strength or growth of flesh and bone and blood. For pale girls, or thin and sickly boys Scott's Emulsion is a great help.

BAPTISTS MEET.

Southern Convention Convened in Annual Session.

Former Governor Eagle Re-Elected President and Geo. W. Norton Chosen Treasurer.

Savannah, Ga., May 8.—The forty-eighth annual session of the Southern Baptist convention opened today at the Savannah Baptist church. Fully 3,000 delegates and visitors are present in the city. James P. Eagle, former governor of Arkansas, president of the association, presided, and Geo. Terrell, of Georgia, gave the address of welcome. The number of delegates recorded is 1,282.

Former Governor Eagle was re-elected president; Dr. Lansing Burrows, of Tennessee, and Dr. Oliver Gregory, of Alabama, were re-elected secretaries. George W. Norton, of Louisville, was re-elected treasurer, and Dr. W. P. Harvey, of Louisville, auditor.

The only new officers elected were three vice presidents—Geo. Hillier, of Atlanta; R. C. Buckner, of Texas, and A. E. Adams, of Portsmouth, Virginia.

WIRELESS TELEPHONE.

None of the Scratchy, Metallic Sound of Ordinary Phone, But Purely Human.

New York, May 9.—Articulate speech was yesterday transmitted by wireless telephone between the pilot houses of two Erie Railroad ferry boats, while the vessels were passing on midstream on the Hudson river.

The tests were crude, but were convincing. Science made a huge stride forward when the voice of A. Frederick Collins, the inventor, who went out on waves of either from the roof of the J. G. McCullough to the Ridgewood that was sending up a sea of foam as she hurried to the New York shore. His brother, Mr. T. Bayard Collins, who sat at the receiving machine in the closed cabin of the Ridgewood, said he heard every word distinctly. In use this telephone is exactly like the ordinary one, having a bell for ringing up and microphones for talking and listening. The voice, as heard through it, has none of the scratchy metallic sound of the ordinary telephone voice, but is purely human.

As the result of the experiment, Collins stated that he would be able to equip two ferry boats at once with instruments absolutely reliable for speech up to a distance of 1,000 feet, while in actual use in the river.

BIBLE FOR HEARST.

Michigan Leader Comes Out For
New York Editor.

Hon. John F. Bible, Mayor of
Ionia, Mich., and an important
factor in the Democratic party in
that State, said last night at the
Waldorf Astoria, that William
Randolph Hearst is the logical
Democratic candidate for President
in 1904.

"Mr. Hearst should be nominated
by the Democratic party," said Mr.
Bible. "He is the only man, so far
mentioned for the nomination, who
could successfully unite all elements
of the party. He has been untiring
in his efforts to advance the cause
of Democracy, and from experience
gained from my recent travels
throughout all parts of the country,
I can safely say that he has gained
a following among the great masses
of the people, regardless of politics,
which, together with the regular
Democratic vote, will surely carry
him to victory," if the Democratic
party nominates him for the highest
office within the gift of the people.

was a valued man of the company
and was widely known. His home
was at Slaughterville, where the
remains were interred Sunday.

TOBACCO PACKAGE DECISION.

Regulation Authorizing Small
Packages to be Revoked.

The Commissioners of Internal
Revenue on a question raised by a
manufacturer of smoking tobacco,
has handed down the following de-
cision:

"This office has decided that the
regulations requiring the manufac-
ture of tobacco to put up small
packages containing less than one
ounce to be repacked in larger pack-
ages, should be revoked, and such
subdivision packages abolished.

"The act approved April 12, 1902,
establishes a one-ounce package of
smoking tobacco, and such packages
must be properly labeled and stamp-
ed. There is no authority of law
for unstamped subdivision packages
intended to be given away as free
samples.

"The manufacturer will be re-
quired to put up all smoking tobacco
in packages containing 1 lb., 2
lbs., 3 lbs., 4 lbs. or 16 ounces respec-
tively, and each small package must
be properly labeled and stamped
before removal from the factory."

booths represented the four seasons.
Persons born in the spring upon
visiting this booth first found re-
freshments appropriate to the
spring. The summer, fall and win-
ter booths each had a different line
of dainties and pretty girls to pre-
side at the tables as hostesses. The
proceeds of the affair were devoted
to charity.

IN THE FUTURE.

Beast dear, with all the world before you,
Opening out before your dreamless
eyes.
Should we smile or shudder, if we saw you
When the world has shown you all its
ways?
Little feet with weary pains to travel,
Little heart with heavy loads to bear,
Little mind with mysteries to unravel,
Shall you not, surely, nod to your share?
Little dimpled hands and tiny fingers,
Is a long life's work in store for you?
Or will Death, with touch that gently
lingers,
Give you rest while yet that work is new?
Be it as it may, sweet baby flower,
In the future that no eye can see
Be the storm or sunshine most your doom,
Beavely struggle the end shall be.

MODERN MACEDONIA

Where the Revolutionary Spirit Reigns That May
Throw Europe Into a Terrible War

We hear much in these days about
Macedonia, the Macedonia, but
investigation through the medium of
the average encyclopedia tells us little
about either the country or people
that is at all in the facts. The fact is
that, strictly speaking, there is now
no Macedonia. The maps show us
Bulgaria, Roumelia, Serbia, Monte-
negro and Turkey, but no Macedonia.
Turkey is divided into provinces (or
"aylets," as they are called), but
there is no Macedonia among them.
Speaking, however, in the popular
sense, there is a Macedonia, and the
section of the world so referred to is
a rather vaguely defined region di-
rectly north of Greece and on the
Aegean sea. On the north it touches
Serbia, Bulgaria and Roumelia. This
corner of the world is Macedonia to-
day because in those remote, re-
mote times of which we once stud-
ied in our school books under the
head of "ancient history" it was
Macedonia. The country that gave
to the world Philip of Macedonia and
Alexander the Great, and of which
Paul had a vision in which he heard
the call, "Come over into Macedonia."

Rules for What in Rhymes.
An oddity in the book line is "Rhyming
Rules for What," by Mr. H. C. Du
Val, issued by the Patience Publishing
company. Mr. Du Val begins his vol-
ume with a rhyme alphabet.

Oh, music, forgive me
I'll give all—desire
My Rhymes, though bad,
Perchance may reach you White.
Like all rhymed rules that survive,
Mr. Du Val's are easily memorized, and
they state the facts clearly as for in-
stance:

DECLARE TRUMP LEGALS
Short suits it is well to lead.
If all trump you stand in need
No short suit lead, we are told.
If an Ace. King suit you hold

Lead the King, and, smiling hand,
Scan the cards in dummy's hand.
If you have the deal, refuse
Either clubs or Spades to choose.

If you're holding King or Ace,
Lead the King and start the pace.
Holding Ace, King, Queen in hand,
Lead the King you understand.

If you hold Ace, King and Jack
With the King begin attack.
King lead slightly will induce
Ace or Queen or both you choose.

The literature of bridge, which has
grown to not insignificant proportions
since the beginning of the vogue of the
game, has been largely published in
booklets like Mr. Du Val's. "As a help
to the memory it supplements them all,
in conclusion its closing couplets may
be quoted, for the benefit of all card-
players, whatever be their game:

Best, of Rules, beyond a doubt,
Keep in mind what cards are out.
And of all things don't ignore
Carefully to watch the score.

A Lucky Kentucky Widow.
Some people might think that Mrs.
Anna Thornton, of Louisville, Ky., is
a widow in luck. She draws four
pensions from the government as the
widow of four soldiers who served in
the war of the rebellion. No fraud
is charged against her, as each pen-
sion was granted in accordance with
law.

FALLING HAIR

Save Your Hair with
Shampoos of

Cuticura Soap and Dressings
of Cuticura,

Purest, Sweetest, Most Effective
and Economical Remedies

For Making the Hair Grow when
All Else Fails.

Prevent baldness and cleanse the
scalp of crusts, scales and dandruff with
shampoos of Cuticura Soap, and light
dressings with Cuticura, purest
of emollients and protectors of skin cures.
This treatment at once stops falling
hair, removes crusts, scales and dand-
ruff, destroys hair parasites, soothes
irritated, itching surfaces, stimulates
the hair follicles, loosens the scalp skin,
supplies the roots with energy and
nourishment, and makes the hair grow
upon a sweet, wholesome, healthy
scalp when all else fails.

Millions now rely on Cuticura Soap,
as well as Cuticura Ointment, the
great skin cure, for preserving, purify-
ing and beautifying the skin, for clean-
ing the scalp of crusts, scales, and
dandruff, and the stopping of falling
hair, for softening, whitening, and
soothing red, rough, and sore hands,
for baby rashes, itchings and chafings,
in the form of baths for annoying
irritations and inflammations or too
free or offensive perspiration, in the
form of lotions for the hair, as well
as for all the purposes of the toilet,
bath, and nursery. Sale greater than
the world's product of other skin cures.
Sold throughout the civilized world.

WARRANT OUT FOR JETT.

Murderer Has Been Caught While
Another Killing is Reported.

Lexington, Ky., May 10.—Thomas
Cockrell last night wore out a war-
rant charging Curtis Jett with the
murder of J. B. Marcan at Jackson
Monday.

At 11 o'clock Cockrell left by bug-
gy for Winchester with the warrant.
Jett went to Winchester this after-
noon, and then disappeared. He
was arrested in Madison county
at the home of his mother.

A report reached Winchester
from Jackson to-night that B. J.
Ewen was assassinated from am-
bush at sundown. Ewen was
standing in the court house door
with Marcan when the latter was
killed, and is said to have recog-
nized the assassin. Later the re-
port was denied.

RUSSELLVILLE CONFERENCE

Will Convene in Pembroke With
Bishop Morrison in Charge.

The Russellville district con-
ference will be held at the Metho-
dist church in Pembroke this week,
beginning at 2 o'clock this after-
noon. On to-morrow the Sunday
school interests of the district will
be looked after. Quite a lengthy
and interesting program has been
prepared. Bishop Morrison will
arrive to-morrow. Several from
Hopkinsville will attend.

TREAT FOR THE W.

In regard to the time required
for sleep eight hours may gener-
ally be considered sufficient for the
average person. Some, of course,
can do with less. In keeping the
body in good physical condition
sleep is next in importance to food.

The steamship Sierra, which ar-
rived at San Francisco from Aus-
tralia, reports that while steaming
at a rate of 16 knots she struck a
huge whale, breaking its back and
cutting it so deeply that the mon-
ster's carcass stuck fast to the stem.

The debts of most southern states
diminish slowly, but the debts of
southern cities are not gener-
ally considerable. New Orleans
owes \$18,000,000; Louisville, \$8-
000,000; Kansas City, \$6,000,000;
Memphis, \$3,300,000; Atlanta, \$3-
300,000 and Nashville, \$3,500,000.

The public school attendance in

000. The proportion of population
enrolled for school purposes in
these territories is 13, 17 and 35
per cent., respectively. In New
York, Connecticut and Massachu-
setts it is 16.

CRANKS IN WASHINGTON.

Great Numbers of Them Attracted
by Sessions of Congress.

"Crank" are more numerous than
ever," remarked a police official to
a Washington Star reporter one af-
ternoon this week after three alleged
crazy people had been arrested and
held for treatment. "Where they
all come from I have no idea," he
added. "There are enough insane
cases now to keep one man busy all
the time, while for many years the
men who had charge of such cases
handled them in addition to his
other work. Seldom a day passes
that there are not several cranks to
be cared for, and the preparation of
their cases requires considerable time."

The official explained that during
the session of congress most of the
cranks throughout the country head
this way because they seem to think
that congress can right all wrongs
and remedy troubles of every de-
scription. It is during the session
of congress that they expect they
will find the president at home, and
many of them call at the white
house. Female cranks have in-
creased in number, and they usually
cause more trouble than the men.
They are more difficult to handle
and harder to deceive.

"Tell a woman you are going to
take her to see the president and
she will believe the white house,"
the official said, "and she will de-
liver the truth of your statement. Us-
ually she will refuse to go, but the
men invariably express a willing-
ness to go and will even go alone if
given the proper directions. They
are often referred to Sanitary Of-
ficer Frank when they call to see the
president, and most of them suc-
ceed in finding that officer at police
headquarters."

"What do you think is the cause
for the large increase in the number
of cranks?" the police official was
asked.

"That's hard to tell," he replied.
"I sometimes think it is the result
of reading so much trashy litera-
ture. There is so much of that
sent printed now, and I think the
people with weak brains read it and
then think over it so much that it
drives them crazy."

The Missionary Apple Tree.

In the rectory garden of Pyrford,
near Woking, there stands what is fa-
miliarly known as the missionary ap-
ple tree. The tree is a large one and
of a good age, and has been so named
for the reason that for many years
past it has been the custom of the
rector of the parish to collect the
fruit, sell it in the best market, and
devote the proceeds to the missionary
societies of the Church of England.
Quite a large sum of money has been
raised in this way.

The New Stocks and Collars

SPRING brings with it fashions in accessories as well as in gowns and hats. Among these accessories none are prettier or daintier than the new collars and stockers. They range from the severe in point of plainness to the daintiest of ornamentation and elaboration.

Fashion has adopted the flat tab finish in front, in place of the band of last spring. The tabs may be long or short, narrow or wide, single or double, the ends of a strap running around the base of the stock, or the turnovers at top of the stock; cut in one with the stock, or stitched on as an afterthought; but tabs there must be.

The bow has not entirely disappeared, however. It is still found in the conservative houses whose maudlin in shirt-waist realm have weight, and it will have its loyal friends all summer. For the low is chic and pretty and does not look old-fashioned as many modes do. The instant they lose fashion's first favor. Still, the minimalist tabs are chic and pretty, too—and they are new.

The variety in the new stocks is not so much in shape as in ornament and workmanship. "Stock with tab front" would describe almost anyone of them.

but each differs from the others in detail. Fancy runs riot within the demure, straight outline, and along the flat surfaces, and the awkward of the season carries out the note sounded in the popular stole—quiet line and ornate detail.

The popular silk stock for everyday wear is made of black tulle or point de sole and is rubbed. It is a very plain in design and finish that care should be taken to wear noticeably pretty turnovers with it. The tabs are finished in French knots, runs of stitching, or lay satin or passementerie borders.

White tulle silk stocks, stitched in lines of color have a plaid hand that has been with point and, which, passing across each other, through all-covered rings in front. This gives almost the effect of a bow, yet is flat. The fine lingerie stocks are an especial feature this season, and a prevailing note among them is the use of bias band stitched together. Often these are finished with a row of the stock and tabs, and this insertion is edged by several rows of the fagotted lingerie folds. Sometimes the folds are made of colored lingerie batiste and the result of the combination is charming.

Tailor-Made Models for Spring

The short skirt being now a fashionable fixture is, of course, receiving a very special amount of attention from the side-camp of fashion, each one of whom seems to be striving to present this favored garment in specially attractive form.

The model shown here is of hopsack tweed, in a shade of gray light enough to be pleasantly suggestive of spring-like weather, and yet not too light to be thoroughly serviceable. The smart little "escape" coat is made distinctive by its wide, bell-shaped sleeves, and its prettily-shaped collar of white cloth, striped with black satin, while the cleverly-cut skirt is gored to the knees, where its wide plaits begin to open out into a most becoming flaire, and are arranged to clear the ground all round.

Another "escape" coat that is attractive and simple to be of blue chevron, the gored skirts having all its seams finished with rows of stitching, and a stitched strapping of the chevron bordering the fronts of the "escape" coat, which, you see, is cut without collar or revers, and so without too, that it looks equally well when worn either open or closed. The skirt in this case, allowed to touch the ground all round.

Trifles in Lace and Ribbons

IT IS wonderful how the additional little velvet ribbon, be it black or colored, will improve little lace novelties, which are dear to the heart of every woman if she takes any interest in clothes at all.

There is shown in the illustration a dainty silk, attached to a lace sailor collar; silk, usually is used for the doli, which is gracefully knotted in the center, and the ends trimmed with lace to match the collar as far as possible. A pretty air of style is introduced in the knots of black ribbon velvet either side of the collar.

Truly beautiful would this garment be carried out with Eclairé point, a crocheted lace which is in high favor just now, and of which many people possess lovely specimens.

Another illustration is of a smart waist-band of purple lace and velvet

ribbon, and beneath the belt is to be seen a very convincing front of cream lace over pink silk, a large bow of the silk adorns the front, while an edging of narrow black velvet on the bows and rows of it down the front complete a dainty trimming.

Another is a heliotrope silk cravat, edged with gold cord and finished with a couple of cascades of cream lace. Quite new, and pleasing to the stole collar. This is composed of a rather coarse brown lace over cream satin, the trimming consisting of rose pink chenille balls and edging, while a motif of the same ribbon, only much wider, is arranged to fall over the front of the blouse. The lining is cream satin.

Smart, too, is the ribbon belt with long cash ends made up over lace; in black it can be worn with any dress, and will be found a most useful possession.

RECORD OF THE PAST

No Stronger Evidence Can Be Produced.

Look well to their record. What they have done many times in years gone by is the best guarantee of future results. Any one with a bad back, any reader suffering from urinary troubles, from any kidney ills, will find in the following evidence proof that relief and cure is near at hand.

Mr. G. M. Myers, the well known shoemaker of Winchester avenue and 14th street, Ashland, Ky., says: "Doan's Kidney Pills are like true friends, the longer you know them the better they are appreciated. I can add nothing to the statements I have made in 1896, after I procured the remedy at the Ventura Drug Co., and took a course of the treatment, which cured me. I was absolutely free from all backache for nearly three years, then I noticed a slight ache, as the result of a cold, in my back. A box of Doan's Kidney Pills disposed of it. I have recommended this remedy to many, and have never heard of one who did not endorse the claims made for it."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U.S. Remember, the name—Doan's—and take no substitute.

CHURCH DESTROYED.

House of Worship at Crofton Reduced to Ashes.

The Universalist church at Crofton was destroyed by fire Saturday about midnight. The building was a two-story structure and was comparatively new, having been erected about a year ago. The second story was used as a Masonic hall.

When the fire was discovered the building was ablaze and in a very few minutes it was reduced to ashes. The church organ and a few chairs were saved. It is not known just how the fire originated. The loss is about \$800. There was no insurance.

STRUCK A MULE.

Three Men Killed in a Wreck Near Morganfield.

A bad wreck on the Illinois Central at Harding Station, two miles South of Morganfield, occurred last Thursday. Three persons were instantly killed. They were Engineer John Shoggo, of Central City; Fireman Thom. Manion, of Henderson, and Caesar Hicks, colored, flagman.

The freight was traveling at a rate of twenty-five miles an hour when the engine struck a mule, derailing it with several cars, piling all together in a chaos of wreck. The three men who met their death were in the engine and were crushed almost beyond recognition.

LANDER-REX.

Popular Young Salesman Weds Pretty Young Woman.

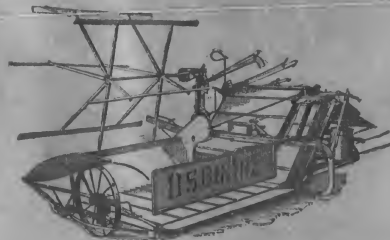

Mr. Charles S. Lander, a popular young business man of this city, and Miss Erna Rex, youngest daughter of Mr. Henry Rex, were united in marriage Sunday night at 7 o'clock. The wedding occurred at the home of the bride's parents, on East Thirtieth street, and was a quiet affair, only a few of the relatives and most intimate friends of the contracting parties being present.

Dr. W. L. Nourse performed the ceremony.

Mr. and Mrs. Lander will board with the bride's parents.

TRUSTS!

Are the natural enemies of the farmer. When he goes to sell the products of his farm he wants as many buyers to compete for these commodities as can be obtained. Then when he wants to make a purchase of an implement he doesn't care how many sources present themselves from which he can buy. The more, the better for him. To illustrate, if he wants a binder he will find that the Deering, McCormick, Plano, Milwaukee and Champion are all in a combination and afford him no competition.

THE OSBORNE

IS THE ONLY binder obtainable in this county that is not in this combination. The farmer's only hope to get binders in future at reasonable prices.

Helping the Osborne Company means fighting the trusts. The owner of the big Osborne Machine Company made speeches all over the State of New York last year against trusts. He is a man of the people, for the people, and his binder is the binder for the people. If his company goes down under the assaults of the trusts, the farmer has no alternative but to buy trust binders.
